

Part 9

(a)

: P line

$$6 \cdot 10 + 8 \cdot 2 - 48 = 28$$

Positive side

: Q line

$$6 \cdot 3 + 8 \cdot 3 - 48 = -6$$

Negative side

(b)

$$w = (6, 8) \quad \|w\| = \sqrt{6^2 + 8^2}$$

$$\|w\| = \sqrt{100} = 10$$

$$d(P) = \frac{28}{10} = 2.8$$

$$d(Q) = \frac{6}{10} = 0.6$$
